"Love To Love"

Love's a thing that needs one to thrive on
And it grows, at least, that's what I've been told
You can't love someone if you find that
All you get in return is a heart that's cold

They say you need love to love
You gotta have love to love
They all say it works that way
But if it's true, why do I love you?
Why do I love you?

Seems like you keep trying to break me
You do things designed just to make me cry
And I've heard if warm liips don't touch you
Love won't grow no matter how much you try

They say you need love to love
You gotta have love to love
They all say it works that way
But if it's true, why do I love you?
Why do I love you?

You gotta have love to love
You gotta have love to love
They all say it works that way
But if it's true, why do love you?
Why do I love you you?
Why do I love you...
