If only you knew could let me in  
I no that love would begin  
If only I could rap to you  
I know this love would capture you  
(killa)

[Cam'Ron]

Yo my mommy toy was my pride and joy  
She would drive the toys plus ride the boy  
To supply the boys I got it live from croy  
Yes a 9ner boy bought five in Boyce  
Over the chick shit I shoot five with Roy  
Now load the 4-5 shoot five a Roy  
Aint like my job boy got on ploy  
Lifestyle I enjoy but I'm the livest doy (doy)  
A hustler and Cam famous you damn anus I don't know  
but I can't change this  
Can't paint it pop it champagne it stop it car drop it and  
look dog damn paint it  
She would throw a pout how I'm showing out how I'm  
out going  
But don't be going out its things to know about when  
you got  
Dough and cloud ways to move murder route baby girls  
close your mouth  
Cause I feed you well every sneaker held you eat Louie  
Shit Gucci and breath channel call log a fell acting like  
gargle mouth front of car cop the cell in the bar stop at

Whats wrong with you she said whats wrong with you

[Chorus]

If only you knew could let me in  
I no that love would begin  
If only I could rap to you  
I know this love would capture you

[Cam'Ron]

Yo, yo uh looking back on school art and crafts  
Fuck after staf beat up after class  
I was like Dr. Dre though I have to laugh  
Nigga with a attitude meet me after math  
Had a half and half now the drink two chicks  
That's a acid fast the half a taf  
You could axe or ask I would dash and laugh  
You after me huh I'm after cash  
Im on I-80 though with my baby  
Whole ride hazy tell her don't drive crazy  
I got plans for you look in the sky baby  
Fuck saving me Mrs. Smith you the pie lady  
Fly lady G to fly baby gee you why baby  
Please boo what's your size crazy  
Don't want it when I'm in a foreign  
Ulmin drop top my charmin is alarmin  
I was alerting her just to reinsert in her  
That I will leave earth with her  
I can't interpret her  
She got mad I leant over and (?)her  
Said when I do dope wit her  
The only time I flirt with her  
Not to be V.I but this is B.I (B.I)  
Me and G.I be watched by the P.I's  
See why we can't finish together  
I'd rather do business the pleasure  
And that's real (killa)

[Chorus]
