Spinning round and searching  
Fill the vacuum, sinking fast  
Putting all in silence  
No compassion, straying mess

These stars are bursting  
Blinding plastics in despair  
See the walking shadows  
You don't know and even care

Hold the fire  
With Desire  
And you will ignite  
Time to reason  
Contradiction  
Love we have inside

Flow it through your veins  
Feel the mystic, not a pain  
Heave the light and heal the fury  
Falling sensory
