Free your mind for desire  
Transcending voices shouted  
Break these chains fly higher  
As one we stand united

Unsung your soul  
With thousands of reasons  
Waiting to be free  
Look into these tears  
With hope of redemption  
Silently we keep  
Changing lanes  
For whom to blame (Show us the ones to blame)  
Grasping hopes  
For us keep (Keeping the silence to)

Mind in discreet  
So you can destroy me  
And raise me through my sins  
Lined with your marks  
I'm holding your sanity  
Wasted for too long
