

Various "All Along"

It's not everything it seems - the world and its dreams
Slipping like water through my hands tonight
All the things I thought would fill me up inside
Left me empty here - and now I know why

All along I was looking for something else
You're something else
All along I was looking for something more
You're so much more
I finally found what I could never see before
You've always been the one that I was looking for
All of my castles in the sand - washed away again
And I'm left back where I began tonight
The only thing that can ever fill me up
Has been right in front of me all the time

bridge:

I won't miss you - I won't miss you this time
I say I want you - yeah I want you in my life
