Chorus: I can make a difference
a difference if I try
if I reach my hand out to you then maybe, maybe
together we can fly

Verse 1: Some folks say that your just one person
I suppose that is true
But I know deep down in my heart there's so much I can
do

Chorus: I can make a difference
a difference if I try
if I reach my hand out to you then maybe, maybe
together we can fly

Verse 2: Some folks worry bout' getting ahead
but I know I would find
going some place would lose its meaning
if I left you behind

Chorus: I can make a difference
a difference if I try
if I reach my hand out to you then maybe, maybe
together we can fly

Verse 3: Some folks worry just about themselves
how I wish they could see
caring for others is a special feeling
and love, yes love is the key

Chorus: I can make a difference
a difference if I try
if I reach my hand out to you then maybe, maybe
together we can fly we can fly we can fly we can fly.
