Sparks Fly, it's like an electricity I might die,  
when I forget how to breathe,  
You're getting closer, and there is no where...  
in this world i rather be,  
Time's stops , like everything around me..  
is frozen and nothing mad is with this,  
Few moments, when you were all bad my mind the  
things i never seen.

\*Chorus\*

Caz' when im Kissin u, my senses is comin like,  
all my sexa paws a piece i'll been tryna find,  
vows ridding in the place..you're all bad it takes,  
my doubts say a way..  
when I'm kissin u

When im Kissin u, it all starts making sense,  
and all the questions i'll been asking in my head..  
like are u the one, should I'll really trust, cristal  
clear it's becaz' when I'm kissin u
