Wherever you are

When I feel blue, I think of you, 'cause you're true
wherever you are
Near or far you still are my shining star
Sometimes it's mad, things get bad and I'm sad
Wherever you are there is light by my side I feel alright

Because our love is big
Bigger than the two of us
And words can not describe
How I miss you so much

La la la
Wherever you are

You make me high I can fly, touch the sky
Wherever you are I feel free, in ecstasy, just you and
me
You save my day, pave the way and you stay wherever
you are
In my heart from the start, we'll never part

Because our love is big
Bigger than the two of us
And words can not describe
How I miss you so much

I feel love in your arms
And I feel love when I'm with you
I feel love in your eyes
Wherever you may be
Wherever you are

When I feel blue, I think of you, 'cause you're true
wherever you are
Near or far you still are my shining star
Sometimes it's mad, things get bad and I'm sad
Wherever you are there is light by my side I feel alright

La la la
