She said life's a lot to think about sometimes
When you're living in between the lines
And all the stars are sparkling, shine everyday

He said life's so hard to move in sometimes
When it feels like I'm towin' the line
And no one even cares to ask me why I feel this way

And I know you feel helpless now, and I know you feel,
alone
That's the same road, the same road that I'm on, yeah

He said life's a lot to think about sometimes
When you keep it all between the lines
And everything I want and I want to find one of these
days

But what you thought was real in life
Oh, it somehow steer you wrong
And now you just keep trying and trying to find out
where you belong
And I know you feel helpless now, and I know you feel,
alone
That's the same road, the same road that I'm on

What you thought was real in life, somehow steer you
wrong
And now you just keep trying and trying to find where
you belong

I know you feel helpless now, I know you feel, alone
That's the same, the same road that I'm on
