I need time (time) (love)

Joy (joy)

I need space (love)

I need me

(action)

Say hello to the girl that I am

You're gonna have to see through my perspective

I need to make mistakes just to learn who I am

And I don't wanna be so damn protected

There must be another way

Cause I believe in taking chances

But who am I to say

What a girl is to do

God I need some answers

What am I to do with my life (you'll find it out, don't worry)

How am I supposed to know what's right (you just got to do it your way)

I can't help the way I feel

But my life has been so overprotected

I tell em what I like

What I want

And what I don't

But every time I do I stand corrected

Things that I've been told

I can't believe what I hear about the world

I realized I'm overprotected

There must be another way

Cause I believe in taking chances

But who am I to say

What a girl is to do

God I need some answers

What am I to do with my life (you'll find it out, don't worry)

How am I supposed to know what's right (you just got to
do it your way)
I can't help the way I feel (help the way I feel)
But my life has been so overprotected

I need time (love)
I need space (this is it)

I don't need nobody telling me just what I wanna
What I want want
What I'm gonna (I need) do about my destiny
(I say just) nobody's telling me just what I wanna (do)
I'm so fed up with people telling me to be
Someone else but me

(action)

What am I to do with my life (you'll find it out, don't
worry)
How am I supposed to know what's right (you just got to
do it your way)
I can't help the way I feel
But my life has been so overprotected

I don't need nobody telling me just what I wanna
What I want want
What I'm gonna (I need) do about my destiny
(I say just) nobody's telling me just what I wanna (do)
I'm so fed up with people telling me to be
Someone else but me

What am I to do with my life (you'll find it out, don't
worry) how am I supposed
To know what's right (you just got to do it your way)
I can't help the way I feel
But my life has been so overprotected
