Girl I know he aint taking care of you  
I can see it in your face  
And I know that's not the man that you really want  
You know

[sisqo:]  
Yeah .....  
Yeah .....  
Whoa...  
Whooa....

[verse 1]  
Lies and deceit  
I know, you feel this with your man  
Cuz within all I see  
Is crying

I should be your boyfriend  
Cuz you know he's lying  
It might seem like Im hating (it might seem like Im  
hating)  
Girl Im just relating

[chorus]  
Step 1, walk through that door  
Step 2, tell him, he's not like he was before  
You don't love him anymore  
Now 3, come to me  
Step 4, I love you more  
You will see how love should be  
But there's 4 steps to believe

[verse 2]  
Everytime, when .. he try .. be the one who would  
Give you all, you deserve  
Now he's not trying

I should be your boyfriend (I should be your boyfriend)  
Cuz you know he's lying (cuz you know he's lying)  
It might seem like Im hating (it might seem like Im  
hating)

But Im just relating

[chorus]

Step 1, walk through that door  
Step 2, tell him, he's not like he was before  
You don't love him anymore  
Now 3, come to me  
Step 4, I love you more  
You will see how love should be  
But there's 4 steps to believe

[bridge]

Listen babe  
Your what Im looking for  
Our love would mean much more  
Sin what he's giving you  
But you must let him know  
That you can't take no more  
Replace him with me (someone who loves you more)  
That be me  
Send someone who deserves him (someone who  
deserves him)  
Get it figure out  
Got it all let down  
Baby

[chorus]

Step 1, walk through that door  
Step 2, tell him, he's not like he was before  
You don't love him anymore  
Now 3, come to me  
Step 4, I love you more  
You will see how love should be  
But there's 4 steps to believe  
[repeat chorus until fade]
