shooting, fleeting
get onto the set at night
play it and repeat it
if you don't then the people won't get it tonight
scripted, heard it
don't it just sound so right?
(??)
the headlines are keeping us up tonight
and they'll scare us all

shut your windows and lock all your doors
choke on it

it's something you won't want to miss
?los angeles?
destroy you're last ??
if you don't watch you might die
struggles, trust me they won't subside
until something ??
just burns through the night
and they'll scare us all

shut your windows and lock all your doors
choke on it
