How when the media stops covering and it's a little help
from the government

We forget about the people struggling and soon hten
it's really all love again nah

you weren't involved before

It's never too late to start you probably think its too far
to even have to care

Well take a look at where you live what if it happened
there
You have to know the urge to make a change lies within
and
We can be reason they see their flag rise again
