Welcome, sulfur dioxide
Hello, carbon monoxide
The air, the air is everywhere
Breath deep while you sleep, breath deep

Bless you alcohol bloodstream
Save me nicotine lung steam
Incense, incense is in the air
Breath deep while you sleep breath deep

Cataclysmic ectoplasm, fall out atomic orgasm
Vapor and fume at the stone of my tomb
Breathing like a southern perfume
Eating at the stone of my tomb

Welcome, sulfur dioxide
Hello, carbon monoxide
The air, the air is everywhere
Breath deep while you sleep, breath deep
Deep, deep, deep, deep
