Go, strike the flint  
If you think it can make a spark  
Stack fuel for a fire  
If there's a chance that this will burn  
Guard off the rain  
From wind brewing in the dark  
And after you do  
I still might just blow you off and turn away

~If you want to light my heart  
~Use a candle, not your Bic  
~Put up on dry land  
~Sea of Love is full of drips  
~Pour the petrol on the cloth  
~Torch gripped tight in your fist  
~If you think you can be  
~My cardiac arsonist~

~Blaze it up  
~Blaze it up~Blaze it up  
~Blaze my heart tonight...~

You can light my soul afire  
With dried up roses and a Zippo  
My outer shell is fireproof  
My wick has just ignited  
So you had best be taking cover  
Set fire~Go higher  
Feed our~Desire  
No never~Whatever  
Oh we're~Forever
