We took this trip to garden grove  
It smelt like lou-dog in the van  
This ain't no reggae party \$5 at the door  
Get so real sometimes, who wrote my rhymes  
I got the microwave got the vcr I got the duece duece  
in the trunk of my car  
If you only knew that all the love that I found  
It's hard to keep my soul on the ground  
You're a fool don't you fuck around with my dog  
All I can see I steal as I fill up my garage  
But my mind music from jamaica  
All the love that I found, pull over there's a reason  
why my soul is unsound  
It's you it's that shit stuck under my shoe  
It's that smell inside the van  
It's my bed sheet covered with sand  
Sitting through a shitty band  
Getting hassled by the man  
Waking up to an alarm  
Sticking needles in your arm  
Picking up trash on the freeway  
Feeling depressed every day  
Leaving without making a sound  
Pickin up my dog at the pound  
Livin in a tweeker pad  
Getting yelled at by my dad  
Saying I'm happy when I'm not  
Finding roaches in the pot  
All these things I do  
They're waiting para tu.
