Stay out of the light
Or the photograph that I gave you
You can say a prayer if you need to
Or just get in line and I'll grieve you

Can I meet you, alone?
Another night and I'll see you
Another night and I'll be you
Some other way to continue
To hide my face

Another knife in my hands
A stain that never comes off the sheets
Clean me off, I'm so dirty, babe
The kind of dirty where the water
Never cleans off the clothes
I keep a book of the names and those

Only go so far 'til you bury them
So deep and down we go

Touched by angels
Though I fall out of grace
I did it all so maybe
I'd live this every day

Another knife in my hands
A stain that never comes off the sheets
Clean me off, I'm so dirty, babe
It ain't the money and it sure
As hell ain't just for the fame
It's for the bodies I claim and lose

Only go so far 'til you bury them
So deep and down we go
Down

And down we go
And down we go
And down we go
And we all fall down

I tried
I tried

And we'll all dance alone
To the tune of your death
We'll love again, we'll laugh again
And it's better off this way

And never again and never again
They gave us two shots
To the back of the head
And we're all dead now

Well, never again and never again
They gave us two shots
To the back of the head
And we're all dead now

Well, I tried
One more night
One more night
Well, I'm laughin' out, cryin' out
Laughin' out loud

I tried, well, I tried
Well, I tried
'Cause I tried but I lied
I lied

I tried
I tried
I tried

And we'll love again
We'll laugh again
We'll cry again
And we'll dance again

And it's better off this way
So much better off this way
I can't clean the blood off
The sheets in my bed

And never again and never again
They gave us two shots
To the back of the head
And we're all dead now
