Light A Rainbow
performed by Tukan

I need to have you near me
In a time when nothing's lasting long
And I need to feel you close to me
As my lover I need to keep you warm

Cause my life is so unreal without you
You're an angel, I see you passing by
And the voice that calls me under
Is a mother crying for her child

When the sun lights a rainbow
Of the tears of joy I cry for you
And the dreamers dream forever
Then I know I'll be here with you

When the sun
Lights a rainbow

When the sun lights a rainbow
Of the tears of joy I cry for you
And the dreamers dream forever
Then I know I'll be here with you
