Love united we will stand up
For all the people of the world

Have you ever dreamed of playing for
The biggest team there is on earth
Have you ever played at dreaming large
The time is now and you are the star

The ball is travelling in your direction
Give it all of your attention
Pick it up and pass it on
That's what's gonna make us strong

We will live for love united
We will give for love united
For moments like this
For all those we missed

We will live for love united
Come together undivided
We will stand up
For all the people of the world

Have you ever dreamed of flying high
Looking down from heaven with god's eyes
You know we could use some intervention
Children needing your protection
It's not enough to sing this song
Lift the cup and pass it on

We will live for love united
We will give for love united
For moments like this
For all those we've missed

We will live for love united
Come together undivided
We will stand up
For all the people of the world

I play for love united
Juego para love united

Jag spelar for love united
Ne ngioka love united
Je joue pour love united

We will live for love united
We will give for love united
For moments like this
For all those we missed

We will live for love united
Come together undivided
We will stand up
For all the people of the world

Eu jogo para love united
