MARY:

When you came to me, on that starry night
And I held you in my arms
Moonlight on your face, heaven in your eyes
And you stole away my heart

As you grew I always knew your destiny
I knew someday you would have to leave
But still I can feel a mother's pain
So I cry
Is it selfish when I do?
Well, I don't want to lose my life with you

HERO:

In our life we've always had this destiny
You knew someday I would have to leave
But now all that I can feel is pain
So I cry

It's the hardest thing I do
But I may have to lose my life with you

TOGETHER:

Though I see the time has come to let you go
You know it doesn't make it easier
And so I will send my prayers with you
My child, wherever you may ever go
With love - my love

MARY:

If it's selfish when I do
I don't want to lose my life with you

HERO:

It's the hardest thing I do
But I may have to lose my life with you

TOGETHER: I don't want to lose my life with you
