Shoot the pop Funky pops

Coffee, tea, or me, baby, touche ole
My opening line might be a bit passe, yes
But don't think that I don't know what I'm feeling for you
'Cause I got a vibe on you the first time that I saw you,
saw you

I need your love and I won't bring no pain
A little birdie told me that you feel the same
I'm for the real and for you all true blue
Lets make a deal, sugar, all I want to do is
Be your one and only lover

I just want to be your lovergirl
I just want to rock your world, hey, hey, hey

Hook, line and sinker, baby, that's how you caught me My second verse might be a bit old hat But don't think that I don't know what it's doing to me 'Cause I got a vibe on you the first time you saw through me, through me

I need your love and I won't bring no pain
A little birdie told me that you feel the same
I'm for the real and for you I'm true blue
Lets make a deal, sugar, all I want to do is
Be your one and only lover

I just want to be your lovergirl
I just want to rock your world, hey, hey, hey

I just want to be your lovergirl
I just want to rock your world, hey, hey, hey

Baby, let me groove you Let me groove into your world I just want to be your lovergirl

Let me prove it to you Baby, let me rock your world I just want to rock your world

Baby, let me sooth you Let me smooth into your love I just want to be your lovergirl

Let me prove it to you Baby, let me rock your world I just want to rock your world

Coffee, tea or me, baby, touche ole
My opening line might be a bit passe
But don't think that I don't know hat I'm feeling for you
'Cause I got a vibe the first time that I saw you, woah

When the push comes to shove
When you need a little love
Let me put some rock into your world

Call me up don't be shy For my love will make you high I just want to be your lovergirl
