[Chorus: Coco Jones]

You're spinning round and round and round in my
head head

Did you really mean the words that you said said?

This is it I gotta know

Should I stay or should I go?

Show me the truth

Is it gonna be me and you?

Is it gonna be me and you?

Is it gonna be me and you?

[Tyler James Williams]

I know you gon' be mad

The feelings that you thought you had

Was for another guy

Well I'm that other guy

I'm just a shy kid, camouflaged before your eyes

Then I knew my lyrics were the key to see the other side

I should have told you but I never had the courage

And I thought you really wouldn't understand (No)

And now I'm out here just to let my feelings surface

Apologizing for disguising who I am

[Coco Jones]

Tell me are you who I thought you were

Or who I wanted you to be?

Did you do it all for him

Or were you only playing me?

[Tyler James Williams]

I did it for you

But I couldn't see it through

[Chorus: Coco Jones]

You're spinning round and round and round in my
head head

Did you really mean the words that you said said?

This is it I gotta know

Should I stay or should I go?

Show me the truth

Is it gonna be me and you?

Is it gonna be me and you?

Is it gonna be me and you?

[Tyler James Williams]

You're all I ever wanted

But I got caught in the shadow in the background

But I'm back now
And Kris was all this and that
And my look didn't really fit the rap, it didn't
match
He had the style and I had the swag
So I locked up my feelings in the words he said
Give me a hand and I'll take off my mask
If you give me a chance, that's all I ask
[Coco Jones]
What ya expecting me to do?
First you were him and now you're you
[Tyler James Williams]
Now it's just me
And you got me on my knees
[Chorus: Coco Jones]
You're spinning round and round and round in my
head head
Did you really mean the words that you said said?
This is it I gotta know
Should I stay or should I go?
Show me the truth
Is it gonna be me and you?
Is it gonna be me and you?
[Coco Jones]
Why do I feel so deceived?
Guess I believed what I wanted to believe
It's perfect in my dreams
But nothing's really what it seems (No no)
[Chorus: Coco Jones]
You're spinning round and round and round in my
head head
Did you really mean the words that you said said?
This is it I gotta know
Should I stay or should I go?
Show me the truth
Is it gonna be me and you?
Is it gonna be me and you?
Is it gonna be me and you?
Gonna be me and you?
