It's sad to think we're not gonna make it
And it's gotten to the point where we can't fake it ooh
For some ungodly reason we just won't let it die
I guess neither one of us wants to be the first to say
goodbye

I I keep on wondering what I'm gonna do without you
And I guess you must be wondering the same thing too
So we go on we go on together living a lie
Because neither one of us wants to be the first to say
goodbye

Oh every time I find the nerve every time I find the
nerve to say I'm leaving
Oh memories those old memories get in my way
Lord Lord knows He knows it's only me
That I'm cheating when it comes to saying goodbye
That's just a simple word that I just cannot say

There can be no way there can be no way
This can have an happy ending
So we go on lying and pretending
And convincing ourselves to give it just one more try

'Cause neither one of us wants to be the first to say
Neither one of us wants to be the first to say
Neither one of us wants to be the first to say
Farewell my love goodbye
