Everybody's got something they had to leave behind  
One regret from yesterday that just seems to grow with  
time  
There's no use looking back or wondering  
How it could be now or might have been  
Oh this I know but still I can't find ways to let you know

I've never had a dream come true  
Till the day that I found you  
Even though I pretend that I've moved on  
You'll always be my baby  
I never found the words to say  
You're the one I think about each day  
And I know no matter where life takes me to  
A part of me will always be with you

Somewhere in my memory  
I've lost all sense of time  
And so my road can never be cos yesterday is all that  
fills my mind  
There's no use looking back or wondering  
How it should be now or might have been  
Oh this I know but still I can't find ways to let you go

I've never had a dream come true  
Till the day that I found you  
Even though I pretend that I've moved on  
You'll always be my baby  
I never found the words to say  
You're the one I think about each day  
And I know no matter where life takes me to  
A part of me will always be

You'll always be the dream that fills my head  
Yes you will, say you will, you know you will  
Oh baby, you'll always be the one I know I'll never  
forget  
There's no use looking back or wondering  
Because love is a strange and funny thing  
No matter how I try and try I just can't say goodbye  
No no no no

I've never had a dream come true  
Till the day that I found you  
Even though I pretend that I've moved on  
You'll always be my baby  
I never found the words to say (words to say)  
You're the one I think about each day  
And I know no matter where life takes me to  
A part of me will always be  
A part of me will always be with you
