Last time I talked to you
You were lonely and out of place
You were looking down on me, lost out in space
Laid underneath the stars
Strung out on feeling brave
I watched the red orange glow
I watched it float away
Down here in the atmosphere
Garbage and city lights
Gonna save your tired soul
Gonna save our lives
Turned on the radio, to find you on satellite
I'm waiting for the sky to fall
I'm waiting for a sign

Though we are
It's all so far

Your falling back to me
The star that I can see yeah
I know your out there, somewhere out there
Your falling out of reach
Defying gravity yeah
I know your out there, somewhere out there

Hope you remember me
When you're home sick and need a change
I'll miss your purple hair
I'll miss the way you taste
I know you'll come back some day
On a bed of nails I wait
I'm praying that you don't burn out or fade away
And though we are
It's all so far

Your falling back to me
The star that I can see yeah
I know your out there, somewhere out there
Your falling out of reach
Defying gravity yeah
I know your out there, somewhere out there

Your falling back to me
The star that I can see
I know your out there, ohhh
Your falling out of reach
Defying gravity
I know your out there, somewhere out there

Your falling back to me
The star that I can see yeah
I know your out there, somewhere out there
Your falling out of reach
Defying gravity yeah
I know your out there, somewhere out there

You're falling back to me
I know, I know
You're falling out of reach ohhhhhh
I know...
