"Our Truth"

Clock is ticking while I'm killing time
Spinning all around nothing else they can do to turn it
back
Breaking partnership in this crime
Ripping up the past, condescending smile

Time to forget
The falling of my truth
Time to forget
Our ways of our truth

Come and tease me

Clock is ticking while I'm still in time
Can't you turn it back?
Stop the cycle set me free, run away
Silence sneaking around my path
Wrap the rope off me, feeling like we'll fly
Feeling like we'll fly

Time to forget
The falling of my truth
Time to forget
Our ways of our truth

Time to forget
The falling of my truth
Time to forget
Our ways of our truth
