i never thought that when i grew up i would be in a
band
and travel all the best spots in the land i'm not here
to brag or boast i'm here to
tell you 'bout the spots that i love the most
natural bridges on a clean
west swell breaks over the reef like a bat out
of hell stockton ave gets
hollow and mean and on a big day it works like
a machine outside
stockton gets hot like a glove swift st john st into
mitchell's cove big
steamer lane makes you wish you were a trout when
it's mackin' so hard
only two dudes paddle out
a huge summertime south swell hit when i'm in
my hometown in a surfside bowl is
where i can be found or up and down
the coast checkin' the spots that i love the most
