Now take me dancing
At the Disco
Where you buy your
Winniebago
I wanna ride on a white horse
I want to ride on a white horse

When the light turns into darkness
Will he turn up to explain us?
I wanna ride on a white horse
I want to ride on a white horse

Lend me a whole new world
All night
Feel life
oh ooh!
When is there ever sense
To love
This world
oh ooh!

In the whirlpool
We'll go deeper
In this world that's
Getting cheaper
I wanna ride on a white horse
I want to ride on a white horse

I like dancing
At the disco
I want blisters
You're my leader
I wanna ride on a white horse
I want to ride on a white horse

Lend me a whole new world
All night
Feel life
oh ooh!
When is there ever sense
To love

This world
oh ooh!

Lend me a whole new world
All night
Feel life
oh ooh!
When is there ever sense
To love
This world
oh ooh!

Oh I love this feeling
Feels like forever
Oh I love this feeling
Feels like real
