Well now wishing for the tender times been broken  
And I think I figured out the dying light  
Yes the truth is that your dialect has zapped you  
Another conversation's kinda low

Is this something we have created?  
Yes myself emancipated  
it doesn't have to be a prophecy  
We could be forsaken destiny

It's fucking down to us and then  
Ya get to say the sane one wins  
When you the whole gone wrong done fucked it  
Im just

AB SENT

Say

Sometimes I feels like it's us against them

AB SENT

Say

Sometimes ya feel like I'm in this one just for me  
If it seems like I'm absent  
from your conversation  
just keep on trucking  
and you'll just find out

Now it seems that there are no easy answers  
to the same old questions I've been posed  
Where does it end, why would you bother asking,  
Like it's something I should know  
Just cause they paid me to tape it  
I guess the money gave me credence  
Watch our records soar  
as you slow down to buy the album  
It's so sick

Now that I pull your covers bitch...yes  
Well I'm fittin' knock that ego down  
Well I slap your punk ass to the floor  
Stupid mother fucker  
Nothing but a buster still talkin' shit

Don't wanna fall so you dig yourself a hole out  
Someplace for you to fall now and for your soul  
Don't take the fall down but let someone go down for  
ya  
Interact doesn't affect your face off.  
Don't worry punk, fuck that them right on  
You in the box so you live with the lies  
Take the fun, love has gone  
interact doesn't affect alright
