Last time I talked to you, you were lonely and out of place

You were looking down on me, lost out in space
Laid underneath the stars, strung out on feeling brave
I watched the red orange glow, I watched it float away

Down here in the atmosphere, garbage and city lights
Gonna save your tired soul, gonna save our lives
Turned on the radio, to find you on satellite
I'm waiting for the sky to fall, I'm waiting for a sign

Though we are
It's all so far

You're falling back to me, the star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach, defying gravity, yeah
I know you're out there, somewhere out there

Hope you remember me when you're home
sick and need a change
I'll miss your purple hair, I'll miss the way you taste
I know you'll come back some day, on a bed of nails, I wait
I'm praying that you don't burn out or fade away

And though we are
It's all so far

You're falling back to me, the star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach, defying gravity, yeah
I know you're out there, somewhere out there

You're falling back to me, the star that I can see
I know you're out there, ohh
You're falling out of reach, defying gravity
I know you're out there, somewhere out there

You're falling back to me, the star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach, defying gravity, yeah
I know you're out there, somewhere out there

You're falling back to me, I know, I know
You're falling out of reach, ohh
I know
