follow me
i need you,
i pleade you to come through

take the lead
you know that's right, behind you
i loved you and what do i get back
still back
that feeling you get
there's someone for you

take me home [x2]
i'm alone here
i don't fear,
i'm safe but alone
it's a cold world, a lone world,
it's hard for a girl
i wish you'd open up your eyes,
see my pain through all the lies
in this room i wish i'd die
feel my tears but do not cry

take me home

is this the end?
i messed up, i'm bad luck
i take it out on me

repremend me
the choices, the voices,
the way i live my life

i pray to the angels,
stand by me, beside me
protect me from pain and the darkness around

take me home [x2]
i'm alone here
i don't fear,
i'm safe but alone
it's a cold world, a lone world,
it's hard for a girl

i wish you'd open up your eyes,
see my pain through all the lies
in this room i wish i'd die
feel my tears but i will not cry
take me home [x4]
