Well, I don't ever have to wonder what it might be like
Going 90 down a freeway in the middle of the night
Hands out the window, just having fun
Smiles on the faces, nothing but time
As we fly by, man, what a night

I don't reminisce about the chances missed
Or let them get me down
It's a chance we take that makes us great
Turns our lives around

They disappear or get us here
Looking back, I know
We don't regret the things we do
Just the things we don't

Well, I don't ever have to wonder if I had a chance
With that blue-eyed girl in my home room class
We took in this far and never looked back
Two kids and a wife, I love my life
Can't wait to see what tomorrow brings

I don't reminisce about the chances missed
Or let them get me down
It's a chance we take that makes us great
And turns our lives around

They disappear or get us here
Looking back, I know
We don't regret the things we do
Just the things we don't

I don't reminisce about the chances missed
Or let them get me down
It's a chance we take that makes us great
Turns our lives around

They disappear or get us here
Looking back, I know
We don't regret the things we do
No, we don't regret the things we do
Just the things we don't, we don't

Just the things we don't
