Well, I'll wait till you listen  
I won't say a word  
to follow your instincts  
just never worked for me  
your silent but strong, (yeah, I'm playing that card)  
and your noticing nothing again

Now I'm lying on the table  
with everything you said  
keep that in mind the way that it felt  
when the most I could do was to just blame myself

(yeah, I'm playing that card)  
when the most I could do was to just blame myself  
and I know, you know, everything  
I know you didn't mean it  
I know you didn't mean it

I know, you know, everything (drop everything)  
I know you didn't mean it (start it all over)  
I know you didn't mean it (remember more then you'd  
like to forget)

So, we're talking forever  
and you almost feel better  
but, betters no excuse for tonight  
you see, it's never bad enough  
to just leave or give up  
but, it's never good enough to feel right

Now I'm lying on the table  
with everything you said  
it will all catch up eventually  
well, it caught up and honestly  
the weight of my decisions  
were impossible to hold  
but they were never yours  
they were never yours

Well I know, you know, everything  
I know you didn't mean it

I know you didn't mean it

I know, you know, everything (drop everything)  
I know you didn't mean it (start it all over)  
I know you didn't meant it (remember more then you'd  
like to forget)

Drop everything, start it all over  
remember more then you'd like to forget [x2]

Would you like to forget  
would you like to forget  
drop everything, start it all over  
well drop everything, start it all over (would you like to  
forget?)  
drop everything start it all over  
start it all...

Well I know, you know, everything  
I know you didn't mean it  
I know you didn't mean it

I know, you know, everything (drop everything)  
I know you didn't mean it (start it all over)  
I know you didn't meant it (remember more then you'd  
like to forget)

I know, you know  
I know, you know...you know, you know, you know...
