When I'm with you (when I'm with you)
You know you make my days
So beautiful with your different ways (you know it)
You make me lighter (yeah, ah)
I'm moving with the wind (movin' with the wind)
Love, you know what you got for me
I got for you too, we can't pretend (I got for you too)

Give me another chance to breathe in
You got all the things I'm needin'
Together we're just so complete
You must be the reason I'm alive

Give me another chance to breathe in (yeah)
You got all the things I'm needin' (all the things I need)
Together we're just so complete
You must be the reason I'm alive (put it on me)

It's all so new, yet so familiar (so familiar)
Everytime I'm next to you
I feel something like forever (you know how it is)
Yes, that's right,
Come on and talk to me (come on talk to me)
Let some of that sweet poetic love fall over me

Give me another chance to breathe in
You got all the things I'm needin' (you got all the things
I need)

You got all the things I'm needin'
Together we're just so complete

All this time I've been lookin' for someone like you
I never really thought you existed
Now I see my dreams are all coming true (you got all
the things I'm needin')
I just want to stay right here with you (together we're
just so complete)

You say I'm like fresh air for the birth of your new eyes
(new eyes)
I say you're like the sun bright enlightening my skies
today (my skies)
We got together to create a new world (a new world)
Only a real man can understand the gift of this girl (oh
yeah)
Bells are ringin',
'Cause what you're bringin' has got me singin' (got me
singin')
Now I can breathe in, you're all I'm needin'
Love is a-breezin', spring is the season
I'm feeling so alive inside and you must be the reason

All this time I've been lookin' for someone like you
I never really thought you existed
Now I see my dreams are all coming true (all coming
true)
I just want to stay right here with you

Give me another chance to breathe in (ooh, give me)
You got all the things I'm needin' (all your lovin' baby)
Together we're just so complete (you know that I love
you, you got me)
You must be the reason I'm alive

Give me another chance to breathe in (ooh, baby you
got me)
