"Walk Away"

Visit "[Walk Away](#)" on MotoLyrics.com

You've heard all they've got to say
You looked but turned away
Just walk away walk away
You've said all you got to say
Now the words just slip away
Just walk away, walk away, walk away
That's what they say, what they say, what they say
You gotta walk away

If you've played all the games they've played
You played them yesterday
Just walk away, walk away
If you've been, where they wanna go, seen all they've
got to show
Just walk away, walk away, walk away
That's what they say, what they say, what they say
You gotta walk away

And now you must believe me, you never lose your
dream
So now you must believe me, we never lose our dreams

If you proved all there is to prove, got nothing left to
use
Just walk away, walk away
If you've done, all there is to do, ain't nothing left for
you
Just walk away, walk away, walk away
That's what they say, what they say, what they say
Walk away, walk away, walk away
That's what they say, what they say, what they say
You gotta walk away today
