[Intro]

I mean, I just need to talk to you right now  
Yeah,,yeah, where I begin  
Right, yeah, yeah

[Verse 1]

Sunny day, age 14  
When I first saw you, you was lickin a Ice cream  
Knew you had freak in ya blood from the get go  
Yo' you showed a nigga some love from the get go  
Cute too, so you ain't get caught in the image  
Friends got in I should'nt of tossed out our business  
So religious, yeah  
In other words, sorry could'nt explain the way I was  
feelin'  
Back to the story  
Member when we used to hit concerts  
Mainly legit and nories  
Tryin to get on that was exciting for me  
And exciting for you that was something to see  
Plus you had ass and I loved that  
Back in this I was ya boyfriend I rubbed that  
Tryin to get on, girl I accheived that  
Everybody hands out from you I recieved that

[Chorus- Sadiyyah]

Don't need no ice or no Bentley  
I just wanna have you here wit me  
I'm their for you, always be true  
It's just you and me, you and me  
You don't have to go double platinum  
I'll be their and I'm always goin' back em'  
I'm their for you, always be true  
It's just you and me you and me

[Verse 2]

I can't promise that  
So I know just because  
How you said them words it had to be love  
Basically it had to be us  
Against the world not giving 2 fucks  
But know soon as shit picked up

I start actin different so you switched up  
I don't blame you, but I blame us  
Kept shit smooth even when it got rough  
But, I don't see that no more  
Got one half our wait hope he sore  
What the fuck is hopin' for  
When I can't be the man I used to be no more  
No time, we don't go out to eat no more  
Barley home, you don't see me before you sleep no  
more  
You love me, and I know you ain't playin'  
'cause the first week gone, you callin' me sayin'

[Chorus]

[Verse 3]

I can't promise that  
Business got good, but we got bad  
Money got happy, but we got sad  
But in the mist we had a daughter  
Evern though we floatin' clear like ocean water  
Came home 2 bags of Fendi  
It was gone that started to offend me  
Child support hit, that really offend me  
Puffy was right it's all about the benjy's  
Bitter now 'cause the loves still in me  
In my boxers on couch, sippin' Remy  
Thinkin' that she need to be killed like Kennedy  
Then I listin to I got the remedy  
After all I still give you what you need, 'cause we got a  
daughter to feed  
Though you supposed to be here at least you sold me  
that  
Why the fuck did I listen when you told me that, stupid

[Chorus 2x]

[J-Kwon talkin over music]

You know, you feal my story  
Write me or something ya know what I'm sayin  
Or I'll be in a town near you or, or  
Your town or whatever ya know  
Come see me and come tell me that ya know  
It's been a long time traveling  
Though you was supposed to be here  
So uh, ya family can't say I'm wrong
