"Let Her Go"

Visit "[Let Her Go](#)" on MotoLyrics.com

You left a letter as a clue
Said meet me at the spot, where I first kissed you
Holding my head in my hands, you brush a tear of my
face
One on one, you confess that this is all you can take

I'm broken(I'm broken)
I'm tired
There ain't nothing left to say
I'm crying
You gave me no options, you just walked away

Just let her go, just let her go
It's too far in motion
Just let her go, just let her go
My heart can't gain control

It's too late (just a little)
It's too far (just a little bit)
You're leaving me behind
Just let her go, just let her go
Just let her go, just let her go
Just let her go

I should take it all back
All the kisses I gave you, the tears that you left me with
I don't know how to react
On my own, by myself
How could you say goodbye?

I'm broken (I'm)
I'm tired
There ain't nothing left to say
I'm crying
You gave me no options, you just walked away

Just let her go, just let her go
It's too far in motion
Just let her go, just let her go
My heart can't gain control

It's too late (just a little)
It's too far (just a little bit)
You're leaving me behind
Just let her go, just let her go
Just let her go, just let her go
Just let her go

It's cold...
It's cold...
It's cold...
It's cold...
It's cold in here without you
It's cold
It's cold
I'm broken
Though it could be you
When you think of it, every little piece of it
It's keeping me from turning blue
Had to turn away, didn't wanna see
You giving me away

Just let her go, just let her go
It's too far in motion
Just let her go, just let her go
My heart can't gain control

It's too late (just a little)
It's too far (just a little bit)
You're leaving me behind
Just let her go, just let her go
Just let her go, just let her go

Just let her go
Just let her go, just let her go
It's too far in motion
Just let her go, just let her go
My heart can't gain control

It's too late (just a little)
It's too far (just a little bit)
You're leaving me behind
Just let her go, just let her go
Just let her go, just let her go
