I'm reaching
I'm reaching for the love I lost tonight
And I don't know why
You're right here, you're right here
But you seem so out of sight
It's messing with my mind

You used to freak with me
You once believed in me
But now I'm incomplete
Thought we were meant to be

Were did you go?
Were did you go?
Were did you go?
You vanished

Were did you go?
Were did you go?
Were did you go?
You vanished

I'm wondering
Something that you said would never die
Has lost it's life
It's fightning
Thinking how I opened up to you
But now it's turning too

We were the best of friends
That's why ths pain won't end
And this is killing me
Thought we were meant to be

Were did you go?
Were did you go?
Were did you go?
You vanished

Were did you go?
Were did you go?

Were did you go?
You vanished

You're just like a magician, with a wand
Now you're missing
Were did you go?
Were did you go?
Were did you go?
Wish I could bring us back
Just who could picture it
But it's too late for that

Were did you go?
Were did you go?
Were did you go?
You vanished x3

Were did you go?
Were did you go?
You vanished

Were did you go?
Were did you go?
Were did you go?
Go, go, go...

Were did you go?
