

Moody Blues, The "Lean On Me"

Visit "[Lean On Me](#)" on MotoLyrics.com

Lean, on me, Ill be there, whenever you need
someone, to share, in every prayer,
in every dream, you've left somewhere,
till tomorrow, will be just like it was when we were
young,
cause to-nite I'm gonna take you where
I've never taken you before

Lean on me, I'm everywhere, wherever you look,
I'll be, forever yours, The northern lights,
The Southern cross, I'll give to you till tomorrow,
will be just like it was when we were young,
cause to-nite I'm gonna take you were I've
never taken you , before

If your alone you'll know where you can find me,
you no there's no escape when you are on your own,
and if your worried and you can see the world slip
through your fingers,
I'll reach out for you in my heart,
there's no more dancing in the dark,

youre not alone , tomorrow,
will be just like it was when we were young,
cause to-nite I'm gonna take you were
I've never taken you before,

will be just like it was when we were young,

to-nite I'm gonna take you where I've never taken you
before,

will be just like it was when we were young.
