Ah, leave this man alone, Ah, leave this man alone

Young girls with long faces come to me at night and
stay the night

Why am I so lonely?

Tell me is it right? (Is it right?)

Leave them, leave them, leave them, leave those
things alone

Leave them, leave them, leave them, leave those
things alone

Someone said I loved you, but I can't think where (I
can't think where)

You know so much about me

So don't stand and stare, stand and stare

Leave me, leave me, leave me, leave my mind alone

Leave me, leave me, leave me, leave this man alone

Ah, ah, leave this man alone

Ah, ah, leave this

Ah, ah, leave this man alone

Ah, ah, leave this

Someone said I loved you, but I can't think where (I
can't think where)

You know so much about me

So don't stand and stare, stand and stare

Leave me, leave me, leave me, leave my mind alone

Leave me, leave me, leave me, leave this man alone

Ah, ah, leave this man alone

Ah, ah, leave this man alone

Ahhhh
