Work away today, Work away tomorrow
Never comes the day, For my love and me
I feel her gently sighing as the evening slips away
If only you knew what's inside of me now
You wouldn't want to know me somehow
But, you will love me tonight
We all know it will be alright in the end

Give just a little bit more
Take a little bit less
From each other tonight
Admit what you're feeling
And see what's in front of you
It's never out of your sight
You know it's true
We all know that it's true

Work away today, Think about tomorrow
Never come the day, For my love and me
I feel her gently sighing as the evening slips away
If only you knew what's inside of me now
You wouldn't want to know me somehow
But, you will love me tonight
We all know it will be alright in the end

Give just a little bit more
Take a little bit less
From each other tonight
Admit what you're feeling
And see what's in front of you
It's never out of your sight
You know it's true
We all know that it's true

You know it's true
We all know that it's true

You know it's true
We all know that it's true

You know it's true

Give just a little bit more
Take a little bit less
We all know that it's true
