"Legal High"

Once you was someone's young one
Makin' your way through that stage
When ya hunger for some kinda substance
But ya just unloved and underage

You knew you needed something
Since you was just a young thing

I get live
Gonna blow my speakers and my mind
Turn on and electrify
Gonna blow my speakers and my mind
Kinda feel like a legal high

Stranded and bored in your room
But ya need to feed ya eager head
Found out how just a flippin' through
The back pages of a magazine you read - said

This guitar and a microphone
Is all you need to grow your own
