

Mooney Suzuki, The "Primitive Condition"

Hey! Make way for the 21st Century Man
Mighty Titan put the fire right into my hands
But sometimes I feel just like a monkey does
Once we was just covered in monkey fuzz

Oh yeah! Oh yeah!
Babe I'm in a state and I cant think
Oh yeah! Oh yeah!
Say baby you're the missing link
Between my brain and my instinct

Been in a primitive condition
Am I a mammal or a man?
Let's get in a primitive position
We're just fancy animals with hands
And animal glands

Modern man understand we're of a higher design
Got just one subject on my higher mind
I'm hot to trot and not gonna stop oh no
Ooh la la now it's gettin' hotter - oh!
