I made my way up the stairs
I was totally gone
And other than the birds,
Nothing had been going on

I know you know that I want
To forgive and forget, but
I know you know that I'm not
The phoenix yet
I'm not the phoenix yet

I heard that you...
I heard that you are not...
I heard that you are not holding your hand
Over the flame anymore

I know you know that I want
To forgive and forget, but
I know you know that I'm not
The phoenix yet
I'm not the phoenix yet

Finally comes the moon
Finally comes the moon

I know you know that I want
To forgive and forget, but
I know you know that I'm not
The phoenix yet
I'm not the phoenix yet...
