She looking for love in the club
She looking for love in the club
She looking for love in the club
ooh she

Let me tell you 'bout this girl I met
She was looking nice so we all made biz
Hey, fellas i'ma go get her
It'll be me going home with her
Pull her up, so I give my number
Rollin' 28's in an all white Hummer
I can see what I want, ooh

But she don't even care
I just wanna run my fingers through her long blond hair
And look into her eyes
If give me a try
I'ma be that guy, I'ma be that guy ooh

She looking for love in the club
She looking for love in the club
She looking for love in the club
ooooh
She looking for love in the club
She looking for love in the club
She looking for love in the club

At a table while everyone's dancing
VIP girl but you won't stop dancing
Hey lady, can I get withcha
Over here let me take your picture
Now you're spitting game like you're plaining scrabble
Talking 'bout me, don't you know word travels
I can see what you want
uohoh

Me, I'll show you that I care
If you let me run my fingers through your long blonde
hair
I'll look into your eyes, baby don't waste no time
I'ma be that guy, I can be that guy

She looking for love in the club
She looking for love in the club
She looking for love in the club
ooh
She looking for love in the club
She looking for love in the club
She looking for love in the club

I've been telling you how much I've been feeling you
Everything I say, it is true, but you won't believe it
If you let it be, baby put your trust in me
You'll see, you'll see

She looking for love in the club
She looking for love in the club
She looking for love in the club
ooh
She looking for love in the club
She looking for love in the club
She looking for love in the club

(What she looking for)
(What she loking for)
(What she looking for)
