Breathe in don't flatline
Breathe in don't flatline

Don't rain on my... don't rain on my...
I've gone back and forth
On the decision to stay put or leave on a dime
How quickly life seems to change for us, for us

Breathe in don't flatline
The choice is mine to live my life
So breathe in don't flatline

Don't rain on my... don't rain on my...
I've gone back and forth
On the decision to stay put or leave on a dime
How quickly life seems to change for us, for us, for us,
for us

Breathe in don't flatline
The choice is mine to live my life

So breathe in don't flatline
If I leave now, if I leave now
There's so much more that I could find
So breathe in don't flatline

How will I know if Im in control?
I'll never know until I let go

Breathe in don't flatline
The choice is mine to live my life
So breathe in don't flatline
If I leave now, if I leave now
There's so much more that I could find
So breathe in don't flatline

I wont waste my time, Ive made my mind
And just like that I'm making the hardest decision
That I'll ever have to make
