Most Precious Blood

I have awakened from my death sleep  
Arise from the grave in which I lay  
Searching for something to sink my teeth in  
To satisfy an insatiable appetite  
I feast obscenely in the midnight hour  
Tonight it's going to be you  
You're mesmerized you are hypnotized  
The darkness it beckons to you

You're my most  
My most precious  
My most precious blood

Gleaming, you swoon in ecstasy  
Caressed and bitten you need more  
Spellbound you're drained dry of blood  
My veins pulsate with your vibrant juices  
Heaven is near but hell's already here  
And you will always belong to me  
You're mesmerized, you are hypnotized  
The darkness it beckons to you

[Chorus]

Yes, I've got you completely in my power  
And before the dawn I'll be back for you  
Then once again you'll swoon in ecstasy  
Once again...

[Chorus]

I'll be back for you...

[Chorus]
