[Percee P]

Check it out... You hit me, hit me with a little something...

Check it out, check it out... Check it out...

Yeah, yeah, yeah, check it out...

I'm a innovator, eliminator of imitators  
I intimidate 'em disintegrate 'em with demonstratin'  
Poetical skills whoever gets healed better 'll field  
And they better at building mind's rhymes that never  
get killed  
If you're clever never play me close champ  
When I kick it I get wicked I'm lickin' it stickin' it like a  
post stamp  
It takes six, I can make hits accapella  
I should sell a million of and livin' like Rocafella  
Battle me? I gotta see m'originality of strategy  
Or that'll be another fatality  
Rap and I like the sport and I write with thought  
On the mic record adversaries 'll put 'em on life  
support I  
Heard your soundtrack, lyrics sound wack to me  
Actually I'm the best around black  
T-Ray make beats, others take beats  
Abuse 'em use 'em to death but they'll never level the  
breakbeats  
Those with audacity tryina smash the P  
Won't last with me using their full capacity  
If you wanna get deep, I made a big leap  
From corners, now I'm on a label called Big Beat  
Percee P's unforgettable  
Writin' recitin' incredible shit no-one else could ever do

Check it out, I'm out...
