You can make me bleed  
Oh love is true  
You can make me bleed

Move up to the city  
And ill follow you  
Move up to the city

Well I want you, want you to know  
Well I remember when you were gone  
Well I want you, want you to know  
Well I remember when you were gone

Take a drive to see  
The way you win  
Take a drive to see  
'cause I aint found the time  
To navigate  
I aint found the time

Well I want you, want you to know  
Well I remember when you were gone  
Well I want you, want you to know  
Well I remember when you were gone
