In the friendship of lovers

Lives the joy of the heart

And when trust is forsaken

Our whole world falls apart

And when the wind cries you're with me

And tears say enough, then the song prays for love

Young hearts forever

Don't wait one moment this time

Love is forever (with somebody like a you yeah)

The young hearts survive

On the wings of an angel

Oo a child learns to fly

And little by little, the sands move through time

And I can live a lie but I think I

Know better-

Young hearts forever

Don't wait one moment this time

Love is forever (with somebody like a you yeah)

The young hearts survive

Here in the darkness

She dances alone
Roses from yesterday
Will she ever know
Young hearts forever
Don't wait one moment in time
Love is forever (with somebody like a you yeah)
The young hearts survive
With somebody like a you yeah
Young hearts, young hearts
Will love, will love, be forever
One moment in forever, forever
Forever (with somebody like a you yeah)
Give me just a little more time
She was an old flame of mine
I remember, I remember
